GENERAL

CARBON NEUTRAL: No net carbon emissions—achieved via reduction and offsetting (e.g., tree planting).

GIVE BACK INITIATIVES: Brand-led charity efforts tied to shared causes.

ORGANIC: Grapes grown and processed without synthetic chemicals.

SUSTAINABLY FARMED: Resource-efficient farming focused on water and energy conservation.

VEGAN: Certified wines free from animal byproducts.

INTERNATIONAL

B.V.: Certifies sustainable practices across industries to improve performance and compliance.

CLIMATEPARTNER CERTIFICATION: Certification for carbon footprint measurement, reduction, and offsetting.

DEMETER: Certifies biodynamic farming, focusing on soil health, biodiversity, and holistic vineyard practices without synthetic inputs.

ECOCERT: Certifies organic, chemical-free, and socially responsible farming.

FAIR TRADE CERTIFICATION: Ensures fair wages, safe conditions, and sustainability in developing regions.

ISO 14001: International environmental management system standard

ISO 45001: Global standard for occupational health and safety management.

SAI 8000: Promotes ethical labor practices and human rights compliance.

ARGENTINA

BODEGAS DE ARGENTINA: Promotes sustainable wine practices in Argentina via audits and education.

VEG ARGENTINA: Certifies products as free from animal-derived ingredients.

CHILE

ASOCIACION VITICULTURA REGENERATIVA: Promotes carbon-focused regenerative viticulture in Spain.

THE CHILEAN WINE SUSTAINABILITY CODE: Framework for sustainability in vineyard, production, and social practices in Chile.

FRANCE

L'AGENCE BIO: France's agency certifying and promoting organic farming.

LIVING SOILS: Promotes regenerative farming to improve soil and biodiversity.

THE HVE (HIGH ENVIRONMENTAL VALUE): French certification for biodiversity, water/fertilizer management, and eco-friendly pest control.

ITALY

EQUALITAS: Italian wine sustainability standard focusing on social, environmental, and economic impact.

THE NATIONAL QUALITY SYSTEM FOR INTEGRATED PRODUCTION (SQNPI): Italian integrated production certification minimizing synthetic inputs.

VALORITALIA: Italian certifier for organic, sustainable agriculture and product authenticity.

VIVA: Italian program measuring and improving wine's environmental and social footprint.

NEW ZEALAND

NEW ZEALAND SUSTAINABLE WINEGROWING: Covers climate, water, waste, and social impact; required for export.

SPAIN

THE WINERIES FOR CLIMATE PROTECTION: Spanish wine certification for reduced emissions, waste, and better resource management.

UNITED STATES

CERTIFIED CALIFORNIA SUSTAINABLE VINEYARD & WINERY: 200+ practices to support long-term sustainability in California.

LIVE CERTIFIED SUSTAINABLE WINERY: Sustainability certification for wineries in the Pacific Northwest with strict audits.

SALMON SAFE: Protects salmon habitats through eco-friendly land use in the Pacific Northwest.
