

Dutch Barn

Vodka

Founded in 2020 by Chris Fraser on the site of a former Yorkshire orchard, Dutch Barn Vodka is the culmination of Fraser's adventurous spirit and unwavering commitment to sustainability. Driven by a passion for both exceptional craftsmanship and environmental stewardship, Fraser set out to create a vodka that is not only crisp and smooth, but also deeply connected to the planet.

In 2023, Dutch Barn expanded its leadership with the addition of English comedian and actor Ricky Gervais as co-owner. Together, they aim to elevate Dutch Barn Vodka to new heights while remaining steadfast in their dedication to sustainability and biodiversity.

Tasting Notes:

Dutch Barn Vodka presents a fresh red apple aroma with a subtle peppery finish, accented by hints of earthiness. The palate offers a warm creaminess, followed by a delicate caramel sweetness. The finish is clean and round, with a soft fruitiness and a peppery note that lingers, reminiscent of ripe pear.

Production:

The journey begins with British apples, which are mashed into cider before arriving to Ellers Farm Distillery. This cider is then distilled through a combination of a stripping column, copper pot still, and two rectification columns, which together feature 70 distillation plates. Each time the vaporized spirit passes through these plates, it undergoes a cycle of condensation, heating, and re-vaporization. This process purifies the spirit, increasing its alcohol strength and refining its character. The result is exceptionally smooth and clean vodka.

ABV:

40%
